Concepts in Feminism (Assamese)

Feminism- Meaning

Feminism is a movement to end sexism, sexist exploitation, and oppression.

Charles Fourier, a utopian socialist and French philosopher, is credited with having coined the word "féminisme" in 1837

The history of the modern western feminist movement is divided into four "waves".

1st Wave- 19th and early part of 20th century: Political and Economic rights
2nd Wave- 1960s to 1990- Women Liberation Movement
3rd Wave- 1991 to 2012- Individuality and diversity
4th Wave- 2012 to present- Use of social Media

SEX VERSUS GENDER

Sex refers to the biological and physiological differences between men and women.	Gender refers to the social and cultural differences between men and women.
Sex has two main two categories: male and female.	Gender has two main categories: masculine and feminine.
Sex remains the same regardless of time and culture	Gender roles, expectations may differ across time and culture.
Sex is created by the reproduction needs, that is, biological features.	Gender distinctions are created by social norms.
